

Dear Mr/Mrs,

We are pleased to announce the 12th Masterclass in Respiratory Infections, which will take place in Barcelona, Spain, from May 30st until June 1st, 2024.

The Masterclass will be organized by Chiesi Pharmaceuticals B.V. in close collaboration with Hospital Clinic, Barcelona, Erasmus Medical Centre, Rotterdam and Ghent University Hospital, Ghent. The concept of the Masterclass is to facilitate stimulating interactive group discussions of clinical presentations, diagnostic methods, antibiotic policy, and other treatments, as well as new research developments in pulmonary infectious diseases. The course participants are playing an active role in the course by presenting case studies, alternated with state-of-the-art lectures from the Barcelonan Dutch-Belgian faculty.

The host institution, Hospital Clínic Barcelona, is a Centre of Excellence in pulmonary infectious diseases. Prof. dr. Antoni Torres, host, and chair of the Masterclass is a member of the editorial board of the American Journal of Respiratory and Critical Care Medicine and the European Respiratory Journal and has published many major research papers on respiratory infections.

We are looking forward to a very inspiring course and hope to see you in Barcelona.

With best regards,
